

BST First Aid

Duration: 2 Days

Aims and objectives of the BST First Aid Module

The aim of this BST Module is to administer safe and effective First Aid in the wind turbine industry/ WTG environment, in accordance with GWO First Aid training through theoretical and practical training.

The BST First Aid Module shall ensure that:

- 1) The Delegates are able to demonstrate understanding of the importance of carrying out First Aid in a safe and sound manner, in accordance with the legislative requirements of their geographic location and according to European Resuscitation Council (ERC) and American Heart Association (AHA) guidelines
- 2) The Delegates are able to identify and explain normal function, normal signs and symptoms of serious and minor injuries and illness related to the human body
- 3) The Delegates are able to demonstrate understanding and correct order of management in an emergency situation in a Wind Turbine Generator (WTG) environment
- 4) The Delegates are able to demonstrate correct use of lifesaving First Aid using the Primary Survey A - B - C
- 5) The Delegates are able to demonstrate correct use of an Automatic External Defibrillator (AED)
- 6) The Delegates are able to demonstrate correct use of Ordinary First Aid, the Secondary Survey
- 7) The Delegates are able to demonstrate correct use of First Aid equipment in a First Aid scenario

Validity of Certificate: 2 years
